For the offices of the future

Office acoustic pods

spoty Let’s meet inside

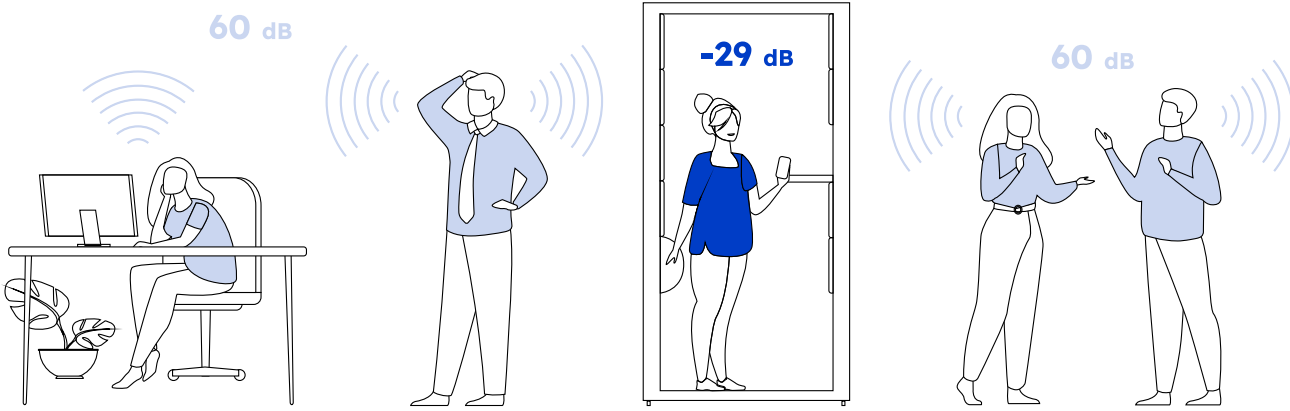
spoty.systems

We have created our acoustic pods **to make office work more effective!**

We are a Polish brand and we want to bring the comfort of work to your office. We design, manufacture and deliver acoustic rooms for companies and public spaces in Poland and Europe.

We reduce noise where it makes it difficult to focus and reduces the comfort of work. We provide privacy where it is lacking.

We invented Spoty to calm office emotions and rooms - literally!



Privacy of meetings and conversations
and effective sound insulation
at the level of ~29 dB

Improvement of concentration and
increase in work efficiency by up to 15-20% *

Ventilation that allows you to use the
enclosed space for longer

Possibility of freely setting the cabin
inside the office [mobility]

Adaptation to individual and group work
- from 1 to 7 users

Why is it worth discovering **Spoty acoustic booths?**

We and our acoustic cabins are at your fingertips. Whenever you need a confidential conversation with a business partner or brainstorm with the whole team.

The effects of our solutions affect the mental well-being of 2/3 of open-plan office employees. **

* PLGBC, Zdrowe zielone biura [2018]
** Evidence Space, Improving employee productivity by reducing noise [2015]
